

## 「Dried squid roll machine, 10 rolls in a row」

### Some features of the machine

- Strength enough for a long time use with a simple structure.
- Some feature of the rolls for the dried squid not to be torn.
- Smoothly discharged dried squid by the installation of upper and lower peeling metals that prevents the squid from being caught on.
- Quickly rolled out dried squid due to the rotation difference of each roll.
- Best for the rationalization in medium and small companies with the low price.
